

## **PERCEPTICS ACHIEVES ISO 9001:2008 QUALITY MANAGEMENT SYSTEMS CERTIFICATION**

### ***HIGH STANDARDS TOUCH ALL ASPECTS OF THE COMPANY***

**KNOXVILLE, Tenn.** – Perceptics LLC, the nation’s leading national border security and traffic management company, has achieved the prestigious “ISO 9001:2008 Quality Management Systems” certification, the industry standard that reflects a consistent focus on high quality throughout the company.

The certification by the independent auditing firm ABS Quality Evaluations includes the design, manufacture, installation and service of Perceptics’ imaging technology systems.

“ISO Quality Management Systems standards touch all corners of our company, from business development and engineering through program management and field service,” said Tom Hayes, Perceptics’ vice president, Sales & Marketing. “As a global imaging and security system supplier to U.S. and foreign governments, our dedication to the ISO quality management process is the backbone of Perceptics’ customer service commitment.”
