

OCR CLOUD SERVICE

Reduce operational costs and maximize OCR performance with Perceptics' Cloud Service.

Perceptics' industry-leading OCR technology is now available in a cloud-based format, adding even more options for processing your license plate data. The Perceptics OCR Cloud Service is infinitely scalable and delivers powerful performance at the speed of the web. Images are easily uploaded to the cloud then processed through multiple OCR engines in parallel using multiple configuration files. This additional processing power allows the Cloud Service to use more broad, advanced processing algorithms, resulting in the highest possible accuracy and a reduction in the number of images requiring manual review.

PRODUCT HIGHLIGHTS:

- › Reduced operational costs and total cost of ownership
- › Higher confidence results leading to increased accuracy
- › Automatically updates to match performance needs and recognize new license plate designs and styles
